

A background image showing an industrial workshop environment, likely an airport maintenance facility. It features large metal structures, pipes, and equipment. In the center, there is a circular logo with the letters 'TC' inside. The overall color palette is muted, with greys, blues, and browns.

## TCR Group – Fabricator – Melbourne Airport

### **The Company**

TCR Group's global presence spans across 200 airports, reaching five continents and 20 countries. With a network of over 80 workshops and a dedicated team of 1,500 employees worldwide, we are committed to delivering excellence on a truly international scale.

For a quarter of a century, the TCR Group has been a global leader, specialising in Ground Support Equipment Maintenance, Rental, and Fleet Management services. Our extensive portfolio includes a wide range of essential equipment, from push-back tractors and loaders to belt loaders, catering trucks, ground power units, air starter units, tow bars, trailers-dollies, baggage carts, and more. We proudly serve Ground Handlers, Airlines, and Airports worldwide, delivering top-tier solutions that keep the aviation industry moving smoothly.

### **Available Position:**

We have an exciting role as a fabricator within our Australian business for an enthusiastic and motivated trade-qualified person in either Welding/Fabrication keen to join a supportive and collaborative team on a full-time basis based out of our Melbourne Airport workshop.

You may have noticed that we frequently post job openings. The reason behind this is our company's continuous growth, not a high turnover rate. This should give you confidence that we take good care of our employees.
